Potential Corporate Member,

In 2022, the Sumner County Museum outlined its 10-year vision, the most ambitious and impacting since its inception. You are receiving this document because you are critical in helping these plans come to life – plans to not only improve the Museum experience but to bring history into the community while supporting the local economy. The plans are great, but with your help, it is possible.

Six years ago, the Museum was gifted three buildings: Historic Stonewall, the Carriage House, and what we're calling The Shop, all located in downtown Gallatin. With the acquisition of these historic buildings comes an increase in operating costs, but also immense opportunities. There are plans for each; in the next nine years, with your support, we believe all will be serving the community in unique and exciting ways. The first was to restore and upgrade Stonewall to open it as an Airbnb, which successfully opened in November 2022.

In the following pages, you'll find details on each of these projects and how they will impact Sumner County.

Will you join the Sumner County Museum in helping these projects come to life? Your support of the Museum translates into the support of Sumner County by preserving these historic properties and making them centers of community and commerce.

Thank you for your consideration to support the Museum in these unique, unprecedented endeavors. We look forward to talking with you more about these projects and how you can get involved.

It is your presence that preserves the past.

*Ryan Baker*

## With corporate member support in 2022 ...

Historic Stonewall was restored to its more original state and upgraded with needed amenities such as two new HVAC units. The goal: Open the house as an Airbnb to create a historic overnight experience for both locals and visitors. For those staying at Stonewall, history will come to life. This opportunity is drawing visitors into downtown Gallatin and will provide a source of revenue to the Museum, helping further the vision of both sharing and making history in Sumner County.

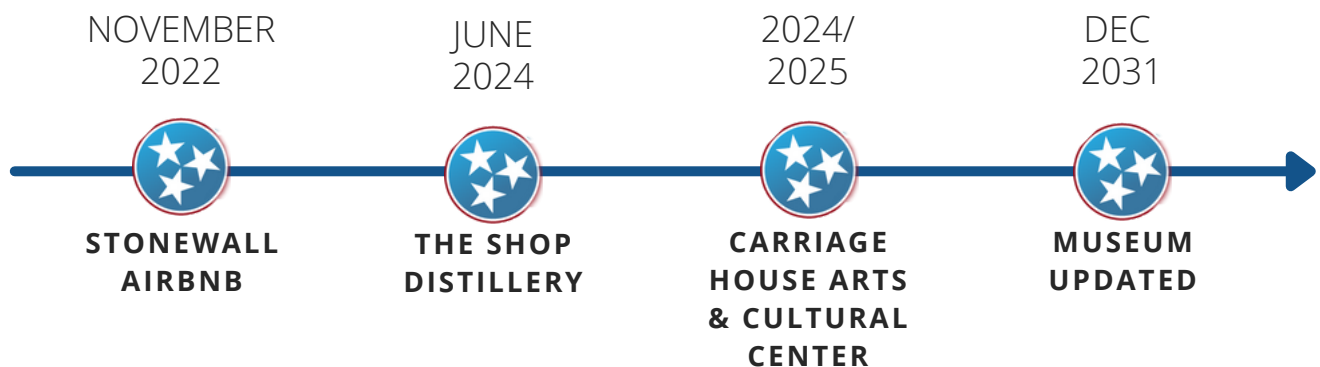

## YOUR SUPPORT WILL ...

Establish the Museum's distilling display after the renovation of **The Shop**. This space will be owned by the Museum and rented/used by distillery and brewery investors. The space allows for a museum display and small batch operation on site using antique distilling methods. It would become a destination for locals and tourists, and event venue, all while introducing the history of distilling and prohibition in Sumner County (of which, artifacts are already on hand at the Museum, ready to be displayed).

Update the historic **Carriage House** in two ways: the extensive first floor footprint allows for an art and cultural center, featuring local artists, small classes, meeting spaces, a potential coffee shop/wine bar, and more. This opportunity exists to create a space to showcase history for the community from both an artistic and cultural perspective. The upstairs space would be converted into office spaces that would provide both space and rental income for the Museum.

Upgrade the current **Museum** space to reduce operating costs, tell Sumner stories, create more hands-on experiences, and better showcase artifacts and inform guests about the items on display. With thousands of Sumner County historical items available, your support would help update the environment to re-engage the community and attract visitors of all ages.

## VISION TIMELINE

# WHY SPONSOR ...

The Museum is the home of the history of this area where we, Rosendin, now call home. The information and opportunities through the Museum give the company a greater sense of belonging and is a resource to learn about where you live and work. The Sumner County Museum has been increasing its community involvement and I'm excited to see what is ahead.

*Tullie Louder*  
*Division Manager*  
*Rosendin*

The Sumner County Museum is an incredible organization that really represents our past, our present and our future. Some of the materials housed at the Museum really hold incredible value for our county. Wilson Bank & Trust gets the privilege to be involved and help support the Museum so that legacy can live on. As we continue to grow, we have to remember where we came from and our past; the Sumner County Museum is really an organization that helps with that. We have a responsibility to honor that past by continuing to look forward, as well. I feel Ryan Baker and his team have done a good job trying to keep the Museum relevant.
